

# Minimalist magic in stone

*This bathroom is twice  
as nice with special  
features creating a  
mirror effect*

**The owners of** this bathroom wanted to incorporate design elements that create a 'wow' factor. The inclusion of two matching Apaiser Crest basins and an Apaiser Reflection bath — both in a modern but classic stone finish — deliver that appeal in spades.

The designer was given a licence to unleash his imagination in this bathroom and decided to

**U** MAKE THE BASINS A STUNNING DESIGN FEATURE WITH A TREATMENT SUCH AS THIS. THE BOLD FLUIDITY OF THE SHAPE MAKES THEM IMMEDIATELY EYE-CATCHING.

use symmetry as key design feature. The perfectly matching basins immediately create a visually arresting focal point in the bathroom.

Made from Apaiser composite stone, they are bold and fluid and add tactility and luxury to the bathroom. They are also extremely practical as Apaiser stone is stain resistant and easy to clean. The basins are fully integrated into the sleek benchtops.

The Apaiser Reflection bath brings an organic element to the bathroom with its gorgeous curves and the bath's generous proportions enhance the feeling of opulence and luxury. The bathware

has outstanding thermal characteristics and resists abrasions, so it will stay looking beautiful for longer.

An open Hansa pure jet duo hand shower and flush-mount ceiling rose are also included in this bathroom.

Subtle downlights strategically placed in this space create an atmosphere of quiet calm and serenity.

Overall, the rich marble tiles, clever use of discreet storage space that has been built in and hidden behind mirrors, the minimalist chrome tapware and the quality Apaiser bathware selection combine to create a bold bathroom that would be a sheer pleasure to use every day.

## Fact file

The bathroom was designed by David Cocks and built by Urban Bathroom Concepts and features bathware by **APAISER** 344 Burnley Street, Richmond Vic 3121 **Phone** (03) 9421 5722 or 1300 366 762
