- Ritz Carlton - Shanghai
- Grand Hyatt - Jakarta
- Aman Hotels - Portugal, Montenegro
- Kempinski Hotel - Jakarta
- Hansar Hotel - Bangkok
- Hyatt Regency - Thessaloniki
- Round Island Resort - Seychelles
- Likuliku Resort - Fiji
- Taj Lake Palace - Udaipur India

- **apaiser** bathware is made from unique patented formula, comprised of crushed marble (recycled), resins and polymers.
- Australian owned and designed, and represented by distributors globally.
- The unique stone composite formula gives the material strength, integrity and stain resistance, warmth and softness to touch.
- **apaiser** stone composite bathware is manufactured from recycled marble and has minimal impact upon the environment. Its manual sanding and hand finishing results in a product more environmentally sensitive than competitive materials, and allows designers to create 'eco sensitive' bathrooms with confidence.

apaiser's beautifully handcrafted bathware is synonymous with luxury, and renowned for its natural, organic feel and sculptural lines. However, it has also been designed with superior performance in mind.

The benefits of **apaiser**:

- Environmentally friendly
- High performance material
- Diverse shapes and designs
- Heat resistance
- Stain resistance
- Non-porous
- Superior thermal qualities
- Soft and warm to touch
- Lighter than conventional stone
- Easy to clean
- Diverse colour palette
- Customisation for projects
